BAPTIST REVIVAL GETS EARLY START

Dr. Dawson to Arrive This
Afternoon to Preach
This Evening.

The revival meeting at the First Baptist church started off Sunday in full swing. There were 501 present in Sunday school, and the church building was crowded to capacity at the morning hour. The evangelist, Dr. Dawson, had not arrived but the local pastor filled the pulpit at both the morning and evening hours.

At the morning hour the pastor preached on the subject, "Marks and Results of a Genuine Revival," and at the close of the service there were eleven additions to the church, two of them for baptism and nine by letter.

At the evening hour the pastor preached on the subject, "Man's Greatest Achievement," the bringing of a soul to Jesus. His theme was along the line of the necessity of personal work.

The rain interfered with attendance at the evening hour but the crowd was estimated around four hundred. The service was held on the lawn.

Mr. Allen, who is to lead the singing, has arrived and conducted the song service at the morning hour. He will be in charge of the song service this evening and wants every boy and girl between the ages of 7 and 15 years, to meet him at the church lawn promptly at 7:30 to organize a "Booster Band."

Dr. Dawson will arrive this afternoon and will preach tonight. Should the weather permit, the services will be held on the lawn, but should it rain the service will be held in the church.

The pastor urges that no one remain at home for fear of rain. An invitation is extended to all who can sing to join the choir, the denomination one believes in or belongs to makes no difference. The morning services will be held at 10 o'clock and the evening services at 8.

SPREAD CROP MARKET BY RADIO IS SCHEME

(By the Associated Press)

WASHINGTON, June 20.—A system of broadcasting agricultural market reports throughout the greater part of the country by wireless will be established today when post office department wireless stations at North Platte, Nebr., Rock Springs, Wyo., and Elks, Nev., will be included in the radio market news service of the Bureau of Markets, United States Department of Agriculture. Agricultural market reports on live stock and meats, grain and potatoes in important national markets have been dispatched daily since April 15 from post office department wireless stations at St. Louis, Omaha and Washington, D. C., and the proposed expansion is due to the successful operation of the service at these points. The Bureau of Markets also arranged recently to broadcast market reports from Pittsburgh by radiophone.

For the first time in the history of the country it is possible, by means of the department's radio service, for farmers to keep informed of national agricultural market conditions the same day that business is transacted. Formerly the growers in many sections, now to be covered with the radio news, received their national market news several days late.

Every effort is being made to organize the state and county marketing and extension agencies into an efficient medium for the receipt of the market news and its distribution among the farmers, and marketing interests in several states within the radius over which the reports will be sent are making a careful survey of facilities for receiving and distributing the reports with a view to designating certain officials agencies to handle the messages. An ideal situation, say Bureau of Market officials, would be the establishment of one or more official receiving and distributing points in each county or group of counties covered.

FARMER CLAIMS AIRPLANE AS "GIFT FROM HEAVEN"

CHICAGO, June 20.—Nelson Kelly, aviator, today retains possession of his airplane but was forced to summon the police to keep it. He made a forced landing yesterday on land belonging to an Evanston farmer, who at once laid claim to the plane as a "gift from heaven." The police finally convinced the farmer that Kelly was an Indian giver and he finally let Kelly fly back toward heaven.

Teachers Will Meet.

The teachers of Pontotoc county will meet in Prof. B. A. Pratt's room, No. 215, at the Normal at 2 p. m. Tuesday for the purpose of making plans for the rural education conference to be held this week. J. H. Hodges, president of the Pontotoc County club, called the meeting and will preside.

SMITH PLANS TO GRAVEL STREETS

Will Ask Property Holders
to Donate \$3,000 for
Equipment.

W. S. Smith, commissioner of public works and property of Ada, says he has a scheme whereby he believes he can make most of the streets of Ada passable at all times. Of course the remedy will not take the place of paving and should not be used on the main traveled streets but it will make those other streets as good as those in any city.

Mr. Smith explains that the funds of the city are limited, and there is not enough money with which to purchase equipment. There is enough money to keep the equipment going. He will ask, therefore, the property holders along certain streets to donate enough money with which to buy a tractor and eight wagons. With this equipment, the city can keep gravel coming into town all the time, this being put first on the streets on which the doers live.

Mr. Smith plans to haul four loads at the time. By keeping four wagons at the gravel pits three miles north of town, the tractor will be busy hauling, four being loaded while the other four are on the road.

The cost of such equipment will be about \$3,000, the commissioner says, or \$10 for each of 300 men. The cost of graveling the streets in this way will not run more than 75 cents a square yard, Mr. Smith believes, including gasoline, labor and upkeep.

The city already has a rock crusher. By putting this to work and getting a crushed rock base and a gravel top, it is believed fair streets can be made.

Rural Education Conference Plans Near Completion

Plans for the rural education conference to be held at the Ada Normal Wednesday, Thursday and Friday of this week are beginning to take form and the meetings promise to be well attended and of great benefit to the students, it is said. The Bryan party, which will have charge of the meetings, is expected to arrive in the city tomorrow.

Three sessions will be held each day, the first will be at 9:30, the second at 2 p. m. and the evening session will be held at 8 o'clock. All farmers, business men, and any one interested in the betterment of rural conditions are invited to attend. Thursday will be Farmers Union Rally day at which time all the farmer unions of the district are expected to be represented.

NEW LEADER OF AMERICAN LEGION IS HERO VETERAN

John G. Emery.

John G. Emery of Grand Rapids, Mich., has been elected national commander of the American Legion, succeeding Col. Frederick W. Galbraith, Jr., who was killed in an auto accident. Emery was formerly vice commander. He served during a greater part of America's participation in the war and was invalided home because of wounds received in the Argonne drive.

IT'S A SAFE BET HE'LL BE THE BIG WINNER

FINANCE SLATE TO OPEN CLEAN

City Will End Year With-
out Debt, Jones Declares;
Paving Is Paid.

Ada will go into the next fiscal year, which opens July 1, out of debt.

This was the statement issued Monday by W. B. Jones, city commissioner of finance, as officials of the city prepared to close up all business for the year. City finances now are in better shape than they have been for years, Jones believes, and not a single outstanding obligation remains with out funds to pay it.

After all debts and current expenses are paid for the years, a neat amount of money will be left as a surplus, Jones said.

By strict adherence to the city budget, expenditures have been confined to a conservative figure throughout the year, the commissioner reported. Total current expenses for the year were \$40,121.09. Big items of this were city water, streets and police. These items also were prominent features on the city's revenue report, according to the commissioner.

Ada will be one of the few cities of the state to show an absolutely clean slate for the year when accounts are audited, Jones believes. Many cities, none of which are allowed to run over their six mills levy, have outstanding bills at the end of the year and are forced to go before the district court and ask for a special dispensation for clearing their books, it is said. City finances for Ada for the last three years have been kept within the budget and each year the books have been started clean July 1 when the new fiscal period opens, it is said.

In paving districts 1 and 2, all bonds have been paid off and in all other districts, payment on these bonds is progressing nicely and bonds are being retired as rapidly as possible, according to Mr. Jones. The city's sinking fund is in good shape, he declares, and the city has money to pay interest on all bonds as it comes due. "There has never been a time when money wasn't at fiscal agency to pay interest before it was due," Mr. Jones said.

Expenses of the city next year will run about the same as they have this year, the commissioner believes. By trimming the expenses of city financial administration until they will fit within the budget there will be no necessity for an increase in expenditures, he said.

Do you have a lot for sale, a house, an automobile, a cow, horse or anything else that somebody else wants? The quickest, cheapest and most satisfactory way to dispose of this is by using a "for sale" ad in the Ada Evening News.

NORMAL TO GIVE DEGREES TO SIX

Bachelor of Arts Conferred
at End of Summer Term
First for School.

East Central State Normal will confer six B. A. degrees at the close of the summer session, this being the first time since the school was authorized to confer degrees that any student has qualified.

John Zimmerman was the first student of the school to earn the degree. He will receive his with the other students at the close of the summer term.

There will also be a large number of graduates from the senior class, all students being awarded life certificates.

Most of this number, and also the greater percentage of those who graduated at the close of the spring semester will teach next year, but several will continue their work in the Normal for their degree.

Those who will receive degrees at the close of the term were officially announced today as follows: H. A. Bower, J. W. Zimmerman, J. H. Randle, Taylor Mitchell, Clara Kyle and Kate McKeown. It is expected that a larger number than this will be graduated at the close of the next school term as many of the seniors are now working with this aim.

Those of the senior class who will receive their diplomas and life certificates are Bonnie Cross, Lola Moore, Thelma Crumley, Marvin Cassidy, Alice Cameron, Dorothy Stone, Juanita Burr, Lena Slover, Elizabeth Smith, Ethel Tanner, Dorothy Waggoner, Pearl Gay, Earl Dawson, Agnes Hall, Lee McAlister, Grace Van Meter, Bernice Bradford, Lee Lowe, Frances McCracken, Otto Bray, Jala Guin, Mable Looney, Myrtle Bonham, Mary Davidson, J. C. Morgan, Julia Smith, Mabel Keel, Arthur Vernon, Hardy Roach, George Cavar and Shady R. Mitchell.

This is one of the best classes ever graduated at the close of a summer term, many of the graduates being teachers who have been compelled to get their education as opportunity presented itself.

Miss Ella Hunter arrived in the city yesterday to spend a few weeks visiting relatives and friends. She will also visit in Tulsa before returning to her home in Paris, Texas.

NOTICE MASON.

Ada Lodge No. 119, A. F. & A. M., will meet in regular communication this evening promptly at 8 o'clock. All members requested to be present as matters of great importance to the craft will be presented. Visiting Masons welcomed.—John Thrasher, W. M.

FRISCO FREIGHT HOUSE OCCUPIED

At Cost of \$50,000 Provision
Made to Care for Heavy
Traffic.

The Frisco freight depot has been completed and the force has moved in. It is a brick structure, costing approximately \$50,000 and is said to be the last thing in efficiency for handling freight effectively and quickly. I. McNair, agent, is delighted with the new surroundings and says he will be able to serve the people of this town and community better.

The building itself is of brick and re-inforced concrete, well ventilated and lighted. Platform to accommodate a dozen freight cars and fifteen to twenty wagons has been provided. Two tracks will be used for unloading.

The floors of the main freight room are built of dirt covered with a layer of cinders. The cinders are topped with a four inch layer of cement, and a wooden floor with upright blocks covers the cement, making one of the strongest and most durable floors it is possible to build.

Lights have been provided all along the platform. Extensions are furnished, and work can be carried on at night as well as during the day.

The walls of the building were put on a deep foundation, and two or more extra stories may be added when needed. It is likely that a second story for the office will be added before a great while.

New furniture has been provided, and the entire force is working in a cool room and with the best equipment. Lavatories, toilets, built-in office features have also been included. Additional telephones have been supplied.

The building was planned by R. C. Stephens of St. Louis and is pronounced a piece of architectural art. The contracting firm was Kelly-Atkinson Construction company of Chicago. Mr. McNair says that both the architect and the contractors did unusually good work.

The office force now at work in the new freight house consists of I. McNair, agent; E. J. Lennartz, chief clerk; U. C. Dixon, cashier; Mrs. D. E. McNair, claim clerk; Miss Blanche Chilcutt, revising clerk; Miss Ida Enloe, bill and tariff clerk; Riley Nolen, yard clerk; W. H. Mock, warehouse foreman; Lyle Walker, W. H. Loving, truckers, and Joe Carson, colored porter.

The depot is located on the north side of the Frisco tracks between North Broadway and North Townsend avenues.

OKLAHOMA WEATHER

Tonight and Tuesday partly cloudy, scattered thunder showers.

LEWIS MAY FIGHT LEAD OF GOMPERS

Big Issues Face Federation
As Second Week Opens;
Irish Split Up.

(By the Associated Press)

DENVER, June 20.—Faced by one of the most strenuous programs in its history the American Federation of Labor today opened the second week's session of its forty-first annual convention.

The Irish question, the railroad problem, the determination of future relations with European trades union movements, jurisdictional disputes, and many other important matters are scheduled for action of the delegates.

Whether Samuel Gompers will be opposed for reelection by John L. Lewis, president of the United Mine Workers of America, had not been definitely learned when the convention opened.

The complicated situation arising from the split of Irish sympathizers is to be disposed of today or tomorrow when the resolution committee reports. The committee is understood to have decided to reject the resolution urging a boycott of British made goods and reporting a less drastic resolution for the Irish cause, and calling for recognition of the Irish republic. Supporters who declare the "official resolution favoring the Irish republic" state that they will carry the fight to the floor of the convention.

The request of the United Brotherhood of the Union of Maintenance of way employees and railway shop laborers for reinstatement in the federation, it was learned, has the full support of the railroad organizations.

The federation railroad program calling for government control "with democratic operation" is expected to be one of the main issues in the fight.

Wage Reduction Is Expected on Roads With Uncut Scales

(By the Associated Press)

CHICAGO, June 20.—An announcement of a wage reduction affecting practically all the railroads involved in the six hundred million dollar wage award of July, 1920 not named in the reduction order of June 1, is expected this week, it was learned at the United States Labor Board today.

A brief hearing covering about 30 railroads asking wage cuts was held today. The board's decision on this case and on the hearing June 6, when more than 150 roads presented petitions, will be rendered simultaneously.

The decision, it was learned officially today, will be drawn as an addendum to the wage reduction order of June 1 and the reduction will be virtually identical with the average 12 percent cut granted by that order.

BAPTIST REVIVAL MUSICAL DIRECTOR

R. O. Allen, of Shawnee.

Mr. Allen has a good voice and knows how to handle a choir, according to all reports. He invites all who can sing, regardless of church connections or preferences, to join him in furnishing the music for the Baptist revival which starts Sunday.

TWO INJURED BY SHOTS IN CROWD

Claimed Jones Misses Aim,
But Stray Bullets Hit
Two Men.

Two persons were injured, neither fatally, when it is alleged Rance Jones of this city fired into a crowd at a Fair Grounds dance at 11:30 Saturday night. Both are in the city hospital where they were reported by doctors Monday as improving rapidly.

Bazer Chandler, of near Tyrola, was wounded in the left arm and chest though injuries were said not to be dangerous. Sidney Harris, 14, of Ada, was shot in the left side, the bullet ranging through the abdomen and coming out at the left hip. The top of the hip bone was fractured but the boy will recover it is said.

Jones was arrested by Sheriff Bob Duncan and placed in the county jail.

According to the story of the shooting as told by members of the sheriff's force, Jones, singled Grover Garr out of the crowd and started firing. Garr, it is said, stepped behind Chandler, who received the first shot fired. Then, according to officers, Jones began firing at random into the crowd which scattered in panic. One bullet found Harris, who is said to be an orphan boy. Specific charges had not been filed against Jones Monday morning while he rested in the county jail. It is expected, however, that charges will be filed against him today before Justice H. J. Brown. Jones faced the courts last Christmas on a charge of shooting his wife. Previous to that time he was charged with shooting a local man who recovered from the bullet wounds.

Except for the shooting, which could not be avoided, there was no disorder at the dance, it is said, and no drinking was anywhere in evidence, those who had the dance in charge declare.

RAPID STRIDE MADE BY COUNTY SCHOOLS

While population of the county was showing only a moderate increase, public schools and school property of Pontotoc county have taken a remarkable stride since 1910 and 1911, according to statistics made public today by A. Floyd, county superintendent of schools.

What has become of "cruel economy?" Phrases, like vegetables, wilt and die.

The declining price of gasoline does not create the interest it would if gasoline were something to drink.

The proposal to reduce the size of paper currency raises the question, whose pockets are o'er full of the stuff?

As a man thinketh, so he is. At the same time it is difficult to think one's self cool these days and be that way.

There is not much sympathy these days for the man who is idle because he cannot get wages high enough to suit him.

It is easier on the pocketbook to go to Oklahoma City now than a few days ago. The strain on the anatomy, however, is just as great. No cushions have been added to the Katy equipment.

President Harding is a man of ability, but he will have to become more positive and have clear cut programs if he expects to get anywhere. As president a man must either lead or be led. It appears that he has not yet decided which he will do.

ABOUT SALARIES

One of the complaints of representatives of organized railway workers before the railroad labor board was that high salaried officials of the roads were receiving money which might better be used in the payment of wages to workers. How, then, are we to receive the announcement that the Brotherhood of Locomotive Engineers has voted a salary of \$25,000 a year to Warren S. Stone, president of the organization? It is doubtful if many railroad executives receive a higher salary than that voted to President Stone.

The point at issue is not that either President Stone or the heads of the railroads should be paid less money, but that they should be paid salaries in keeping with their services to the organizations they represent. Men of exceptional ability can render service which cannot be measured by dollars. But who will say that the directing head of a great railway system is not worth more than the head of a labor union?

The payment of large salaries simply as a sinecure should not be condoned in any business, but men of exceptional ability should be able to do much more for the institutions which they serve than is represented in the salary received. Certainly this is just as true of the executive of any big railroad as it is of President Stone of the Brotherhood of Locomotive Engineers.

Industrial corporations are handicapped to some extent by the difficulty of getting men who are big enough in executive ability to earn the large salaries which would be paid to any person capable of successful management. There is no reason why railroads should deny themselves the service of men of ability by the payment of salaries out of proportion to the effort and ability required. The petty economies of a village grocer do not apply to the operations of a great corporation.

UNCLAIMED MONEY

Industrious and careful persons, who find it not always easy to adjust their expenditures so that they may run somewhat below their incomes and thus afford a basis for adding to the sum laid away for a rainy day, and who anxiously scan their bank balance after making out checks for the month's expenses, probably wondered to themselves when they read that more than \$83,000,000 was lying in the United States treasury waiting for its owners to send and get it.

This money is not due as the result of successful suits against the government for work done or supplies furnished. It simply represents interest coupons on the new issues of government bonds put out since the beginning of the late war and is immediately available, all that is necessary to obtain it being to present the coupons for payment.

It is not necessary even for the owners of these millions to make personal application. All they have to do is to deposit the coupons in any bank and the matter will be attended to with no further trouble on their part.

The money referred to is chiefly the interest due on Liberty bonds which have not been converted into permanent securities. The coupons on the temporary bonds being all cashed, the bonds themselves should be presented for exchange for new bonds, to which all unpaid coupons are attached. This can be done through any bank, without expense to the owners, and it ought to be done promptly.

The millions of dollars the undeposited coupons represent should be converted into credit at the bank, through deposit, the same as cash or checks. The large sum would add to the circulating medium, and its place is in the banks where it will be available for business users, and help in restoring commerce and industry to a basis of normal activity.

The Ada Evening News

Comments given below do not of necessity reflect the opinion of the News. In fact, oftentimes the opinion expressed is directly opposite to that held by the News. The opinions are given, however, because this is a newspaper.

Oil Racing Ahead

Tulsa Tribune: While the price of oil comes down with a hard thud to bottom, it is only the pessimist who sees blue. The future is always brighter than the past. Not only are better times coming but better times than ever before are coming. It is as true in the oil business as in any other vocation, enterprise or human activity.

The other day over four and a half million dollars of oil leases were purchased at Pawhuska. The Prairie, which made two cuts of 25 cents within one week, paid over a million dollars for just four tracts. Why do you suppose they did this if the oil business has gone "bink"? They did it because they knew the oil business was going to come up. And in that connection let us not forget that while some old markets have been shut off, new markets are coming in.

Oil and coal are right now in a race across the Atlantic. Two sister ships of the Cunard line are demonstrating the comparative merits of coal and oil. The oil-burning Aquitania and the coal-burning Mauretania are now making a series of friendly tests of speed, endurance and general capacity in all kinds of weather. It is the history of human progress in concrete form. The older coal-burning vessel represented the last word in scientific navigation when it and its sister ship, the ill-fated Lusitania, took the ways.

But the oil burners represent scientific progress of a still later day. Oil consumption had its first extensive demonstration because of the scarcity and high cost of coal. The engine designers have now perfected oil-burning machines that are giving coal the race of its life for supremacy.

It is not on the sea alone that science is pushing forward. Coal-burning locomotives, if we can accept the prophecies of experts, will soon be among the relics, just like the old wood-burning locomotives of pioneer days.

On the desert stretches of trans-continental roads, the experiments in oil-burning engines have been a signal success.

A new oil era is coming. It is the wise man who is prepared.

Love and Taxes

Chickasha Express: It is a truth which Cupid long ago discovered that when a young man and a maid really fall in love with each other, they must necessarily think that they are different from everybody else and that never before in the history of the world, not excepting that affair of Romeo and Juliet, has there ever existed such love as theirs, says a trade journal.

And so to every generation, its problems are different and more difficult than any that have ever gone before. We of this generation feel, and probably with some reason, that we face problems of reconstruction and business readjustment greater than any that ever came before. Our taxes seem harder to bear and we have more obstacles to overcome, we think, than rightly should belong to us.

There is a certain solace, and a lesson for us, to be found in the words of that wise man who among other things was a master printer, Benjamin Franklin. Speaking thru the mouth of his fictitious character, "Poor Richard," to a much earlier generation than ours, but one which also thought its burdens more than "it could bear, he said:

"Friends and neighbors, the taxes are indeed very heavy, and if those laid on by the government were the only ones we had to pay, we might the more easily discharge them; but we have many others, and much more grievous to some of us. We are taxed twice as much by our IDLENESS, three times as much by our PRIDE, and four times as much by our FOLLY; and from these taxes the commissioners cannot ease or deliver us, by allowing an abatement. However, let us hearken to good advice and something may be done for us; God helps them that help themselves."

"It would be thought a hard government that should tax its people one-tenth part of their TIME, to be employed in its service, but idleness taxes many of us much more, if we reckon all that is spent in absolute sloth, or doing of nothing; with that which is spent in idle employments or amusements that amounts to nothing. Sloth, by bringing on disease, absolutely shortens life. Sloth, like rust, consumes faster than labor wears; while the used key is always bright. But, dost thou love life? Then do not squander time, for that's the stuff life is made of!"

The Banker as Teacher

Chicago Journal of Commerce: Although the Illinois bankers in convention here last week discussed several problems of vital importance to their business, none is of greater interest than that which has to do with the education of the public to an understanding of the practice and principles of banking. Not alone in the sense that it stood for solidity, acted carefully and gave due consideration to its every act. That is entirely as it should be. But it was conservative in another sense. It sought no publicity, and seemed by its attitude to draw away from the public rather than to make it known that its function is to serve in a tangible manner.

But the bankers have changed and gradually they have learned the value of advertising. Now they

are going a step farther. They are to institute in the schools of Illinois, classes, which with practical banking men as instructors, will tell the children of the state the primary facts about the banking business. Heretofore there have been no courses of instruction along these lines even in our high schools the average student having to wait until he entered college before being introduced to a text book on "Money and Banking" and then only provided that he selected an economics course.

Of course the Illinois bankers do not intend to set themselves up as professors of political economy, and the instruction courses they plan will be of an elementary nature. But they will accomplish results. The children will glean a definite idea of what kind of business is done in the imposing big buildings with their marble walls and grained windows. Best of all they will be taught the lesson of thrift. There is a need for that lesson among young people of the present generation, and if the germ of saving is implanted in the child of school age it will in all probability take root and grow.

The banker as teacher should not seem strange to us. Every business man has known him as a doctor of financial ills, as father confessor in many troubles, as lawyer when sound advice was badly needed, so why should he not be well prepared to become a teacher, especially when he is to throw light on the business he knows best. Good bank patrons make a good community and the army of pass book holders will increase just as rapidly as the people learn what banking really means.

Vocal Studio

A New York voice teacher, conceded to be the best in the United States and the peer of any European teacher once said to me personally that it would be a pleasure to receive my pupils, because of my up-to-date common-sense methods and because I was a thorough instructor in piano. Reputable teachers of singing the world over insist upon a course in piano preparatory to the serious study of voice.

I have the endorsement and the hearty co-operation of the best teachers in the musical centers of Oklahoma, they taking my pupils forward without any change whatever. The names of these teachers will be furnished upon request.

I have had the best instruction this country affords, my work having been entirely with artist teachers. My studio in the Business College will be open all summer.

HARDING RETURNS FROM CRUISE DOWN POTOMAC

(By the Associated Press)

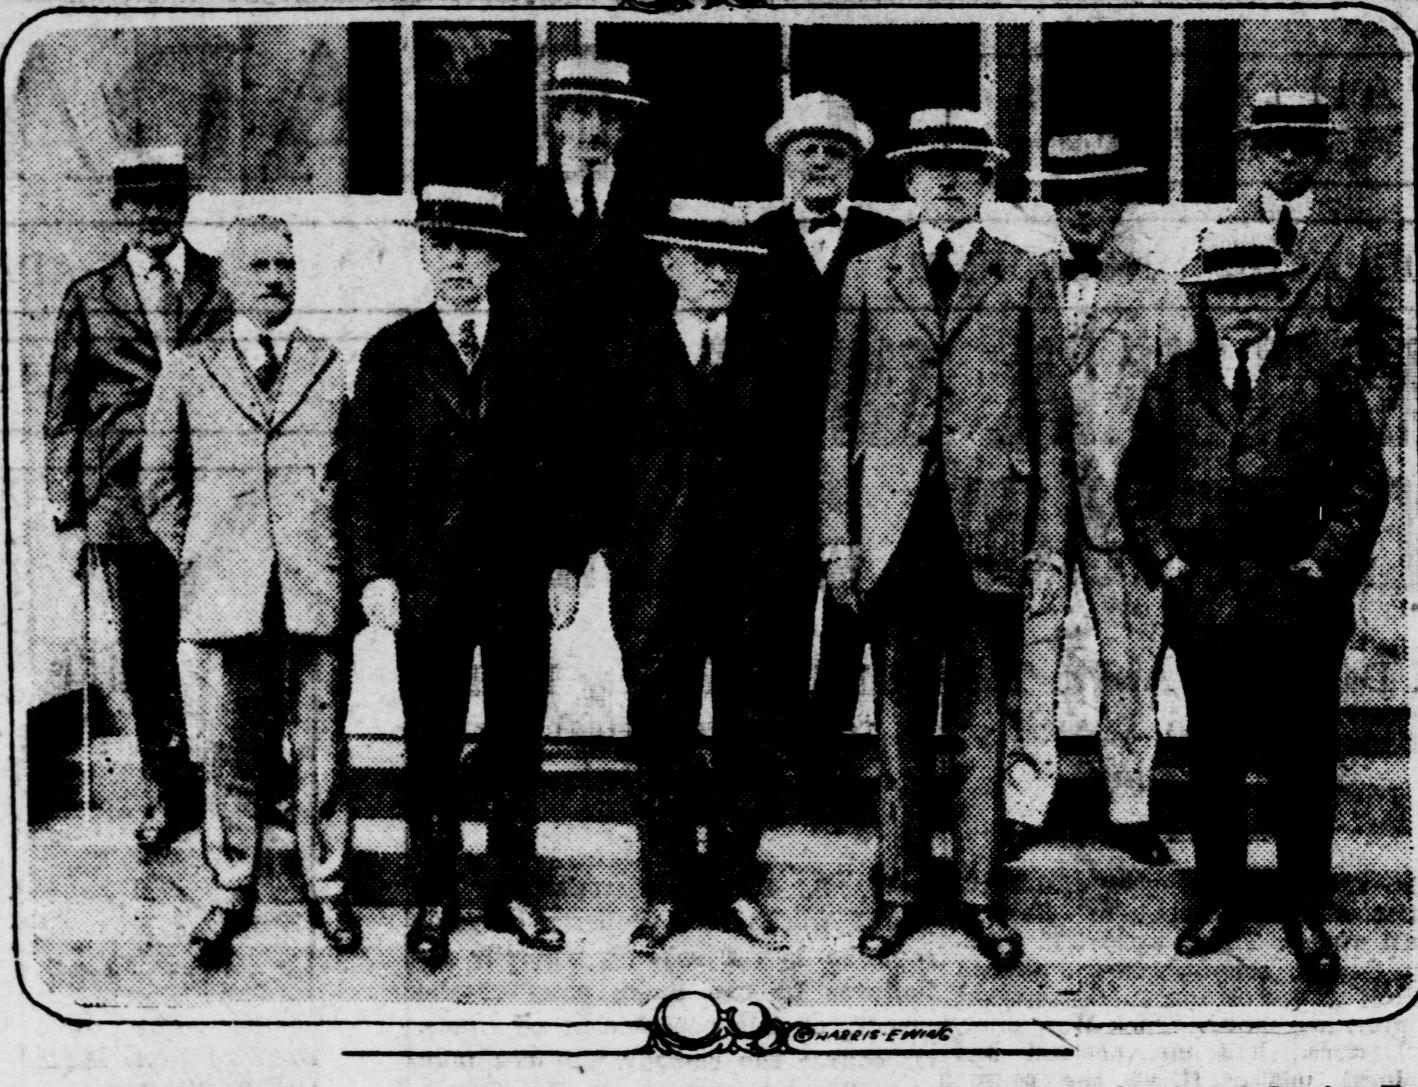

WASHINGTON, June 20.—President Harding returned today from a week-end cruise down the Potomac river on the presidential yacht, the Mayflower. President Harding was accompanied by Mrs. Harding and a number of guests. He did not find the Mayflower remaining anchored at the mouth of the river over Sunday.

Held for Ardmore. R. L. Richards was arrested in Ada yesterday by the sheriff's force and held for Carter county officers. Richards is wanted in Ardmore for an alleged offense in 1918 it is said. He was taken back by Carter county officers.

License is Issued. A marriage license was issued Saturday by the court clerk's office to William Miller, 21, Henryetta, and Miss Katie Bond, 18, Allen.

INSANITY ON INCREASE NOTED DOCTOR DECLARES

(By the Associated Press) WASHINGTON, June 20.—Insanity is on the increase, due to the war's aftermath, Dr. J. M. Lee of Rochester, New York, today told the annual convention of the American institution of homeopathy.

"The general hustle and hurry and the tendency to worry makes for throwing the mental machinery out of gear," Dr. Lee said. The specialists declared that farmers were most susceptible to insanity.

IN SOCIETY

G. C. Harris of Madill, was in the city yesterday visiting his father, J. F. M. Harris, and other relatives and friends.

C. P. Penrose, who attended a conference of Edison dealers at New Orleans last week, returned to his home here Saturday night.

Mr. and Mrs. C. D. Price have moved into their new home at 131 East 13th street, which they recently bought from the Tobias family. The Tobias family will leave tomorrow for their home in Los Angeles. Friends of Mr. and Mrs. Price congratulate them on securing so beautiful a home.

Mr. and Mrs. John Porter left yesterday afternoon for Muskogee where they will visit a few days with Mrs. Porter's parents, Mr. and Mrs. C. E. Charles.

Miss Elizabeth Knight of Wichita, Kansas, is in the city visiting her sister, Miss Kate K. Knight of East Tenth street. Miss Elizabeth has visited here before and has made many friends. She will probably spend the greater part of the summer in Ada, returning to Wichita in time to resume her duties as principal of one of the largest ward schools.

Approaching Events.

The marriage of Miss Lenore McKendree to Mr. Tom Grant and Miss Gladys Ridling to Jack Dodd, Jr., both to take place on June 22, have been announced. The former couple is well known here. Miss Ridling is now residing at Hugo, but formerly made her home in Ada. Both weddings will be performed in this city Wednesday.

Trip to Sulphur.

The members of the Friends Club and a number of their friends went to Sulphur Sunday and spent the day. The day was most enjoyably spent in kodaking and enjoying the privileges of the government park. Lunch was served at the spring after which all went to the swimming pool, where several members of the party took a swim. Returning to the spring later in the afternoon supper was served.

The return home was also very enjoyable as the ride was spent in singing and telling jokes. It was late before the party reached home, tired but having enjoyed the day nevertheless.

Those who were present on this trip were Misses Una Hopper, Jessie, Essie and Bessie Thompson, Nona Lawyer, Sybil Fulton, Pearl Brown, Myrtle and Etta Mae Qualls, and Effie Lillard and Messrs Ernest Lawyer, Gus Gun, Bernard Dearl, Roy Lillard, Grady Gibson and Mr. and Mrs. Dee Bennett and son, Joe D.

Celebrates Anniversary.

On Saturday of last week a number of invited friends gathered at the beautiful country home of Colonel and Mrs. J. W. Davis, 12 miles northeast of Ada, to celebrate with Colonel Davis the forty-second anniversary of his arrival in the state of Oklahoma, and those who were present from Ada returned to the city late in the afternoon in their praise of the pioneer Oklahoman as an entertainer.

For several years the approach of June 18 has been a signal to Colonel Davis to issue invitations to his closest friends to enjoy with him at his home the return of the day on which in 1879, he first reached Oklahoma from the Lone Star state.

The Davis home, a beautiful two-story, sixteen-room dwelling house, built recently, half way up a black-jack covered hill, by the side of the old Allen road on a 400-acre farm was designed by Colonel Davis as a home for himself and his wife during their declining years.

When Mr. Davis dies the property is to be turned over to Pontotoc county for an orphans home, together with a donation which will make the home self-sustaining.

Those in attendance were Tom D. McKeown, John P. Crawford, Homer Phelps, W. B. Jones, Wm. Emanuel, F. D. Alder, Roland Sadler, B. C. Waddington, Kit Guest, Blain Gilbreath, C. H. Rives, H. E. Evans, R. C. Roland, A. R. Stagg, Tal Crawford, Luther Franklin, R. W. Simpson, Charlie Ray, Joe Rushing, Charlie Rushing, Marion West, W. H. Rayburn, all of Ada, and Al Cummings, W. A. Delaney, Gus Stokes, Fritz Johnson, N. Olivo and Burke Adams, all of Allen.

Obituary

Aunt Margaret Lee.

Aunt Margaret Lee died at the local hospital at 4:30 a. m. on Sunday, June 19, after having suffered for several months. She spent most of her later life near Ada and is well known in this community. The funeral services were held at the family cemetery at Conway Sunday afternoon with Rev. Williams in charge. She was 75 years of age. She lived several miles southeast of the city.

Lenore House.

The funeral of Lenore House, who died of pneumonia at Fort Sill on June 16, was held at the Cummins Undertaking parlor Sunday afternoon at 3 o'clock with Rev. C. C. Morris in charge. The burial took place in Rosedale cemetery Sunday afternoon.

Grandma Bass.

Grandma Bass died at the home of her son, Jim Bass, of 416 West 7th street, Sunday afternoon at the age of 83. Funeral services were held at the home Monday afternoon with Rev. Nettles in charge. Interment took place in Rosedale cemetery.

SOLDIER'S BONUS BILL FAVERED IN COMMITTEE

(By the Associated Press)

WASHINGTON, June 20.—The five-way soldiers' bonus bill endorsed by the American Legion was reported favorable today by the Senate financial committee, but when it will be reached in the Senate is uncertain. There was no opposition to the bill in the committee but several senators reserve the right to offer amendments in the Senate.

It provides for adjusted service pay of former service men and the provisions of the bill include a cash bonus or "adjusted service pay," deferred pay under "service certificates," vocational training aid, farm and home aid, and land settlement aid. No provision is made for meeting the expenses it involves.

Many Counties Are Contributing Some of Normal Classes

Some statistics concerning enrollment at East Central Normal have been submitted by the registrar showing that not only is every county in the district represented but nearly every county in the state has at least one student enrolled. Three other states also have students in the Ada Normal.

The following is a list of the counties and the students of the district as compiled with the list:

Seminole 48, Coal 52, Hughes 58, Pottawatomie 45, Okmulgee 54, Okfuskee 27, Garvin 52, Murray 51, Johnston 82, Pontotoc 411. States with students here are as follows:

Arkansas 14, Texas 4, Kansas 1, and Kentucky 1.

Other counties of the state with students enrolled are as follows:

Ottawa 1, McCurtain 1, Carter 9, Grady 4, Pushmataha 4, Marshall 3, Bryan 6, Stephens 6, Pittsburg 10, Sequoyah 3, Haskell 3, Choctaw 3, Dewey 4, Creek 4, Atoka 7, LeFlore 5, Cleveland 2, Latimer 4, Tulsa 1, Caddo 3, Lincoln 1, MacLosh 5, Oklahoma 1, Love 1, Cotton 3, and Osage 1. This does not include the training school enrollment.

COMPLAIN TO HUGHES OF MEXICAN TAX BURDEN

(By the Associated Press)

WASHINGTON, June 20.—Secretary Hughes was urged today by representatives of American oil companies operating in Mexico to take steps to protect those companies against taxation regarded by them as confiscatory.

More than a dozen men placed before the secretary a memorandum reviewing the history of Mexican taxation of oil since the discovery in that country up to the recent decree of President Obregon increasing the tax twenty-five per cent.

Students to Mingle in Annual Mixer at the Normal Tonight

One of the most elaborate informal entertainments in the history of the East Central Normal will be enjoyed tonight when the faculty entertains the entire student body with a mixer on the school campus. Committees have been appointed for the various parts and all plans and preparations have been made. Time or trouble has not been spared in preparing for this affair and it is expected that every student will be there on time this evening, those in charge said.

Prizes will be awarded, games will be played, and contests will be held. Music for the occasion will be furnished by the High school band. Refreshments will be served and in general the affair promises to be of great importance to all. Every game and contest will be carried out according to the program and a sufficient number of leaders have been selected to have charge of each event.

HEAVY DOCKET FOR THE OPENING DAY

Eighty Nine Criminal Cases To Be Tried in Five Days.

Of the 28 cases on the criminal docket of the county court for trial Monday, the opening trial day of the term, nine charge abandonment, six unlawful possession of intoxicating liquor, five obtaining board by fraud, and four the unlawful manufacturing of intoxicating liquor. Transporting intoxicating liquor, pointing a gun, receiving stolen property and vagrancy are represented with one case each on the opening day of the term.

Some of the cases are old ones and have been continued from time to time, for various reasons. The court officials have made known their intention of placing on trial every case possible and doing their best to clear the docket, as they proceed from day to day. Altogether there are 89 cases on the criminal docket to be disposed of, Monday to Friday inclusive.

The civil docket is set to begin the following Monday, April 18. There are 47 cases on the civil docket, which is marked up to and including Wednesday, April 20.

On Thursday and Friday, April 21 and 22, the 76 cases which have been appealed from the mayor's court will be tried. Many of these cases are old ones, having been continued one and two times at the request of the city. It is thought that most of the cases will be disposed of during the coming term.

The following cases are on the docket for the opening day, Monday, April 11.

State vs. Johnnie Johnson, charged with vagrancy.

State vs. Johnnie Johnson, charged with receiving stolen property.

State vs. Hascal Ward, charged with abandonment of a minor child.

State vs. Long Archer, charged with obtaining board by fraud.

State vs. George Morton, charged with unlawful possession.

State vs. C. E. Johnson, charged with obtaining board by fraud.

State vs. George Burrell, charged with unlawful possession of intoxicating liquor.

State vs. Elmer Yancey, charged with manufacturing intoxicating liquor.

State vs. James M. Herden, charged with abandonment.

State vs. Johnnie Johnson, charged with manufacturing intoxicating liquor.

State vs. Joe Watson, charged with unlawful possession of intoxicating liquor.

State vs. F. Z. Holley, charged with unlawful possession of intoxicating liquor.

State vs. Arthur Price, charged with pointing a weapon.

State vs. Elmer Welch, charged with defrauding a hotel keeper.

State vs. Dave McDonald, charged with abandonment.

State vs. Dave Herndon, charged with abandonment.

State vs. C. A. Warren, charged with defrauding a hotel keeper.

State vs. Jim Foster, charged with abandonment.

State vs. Dan Hutchings, charged with abandonment.

State vs. Grammar Berry, charged with abandonment.

State vs. J. H. Vicrey, charged with defrauding a hotel keeper.

State vs. Dode Brandon and Mrs. Brandon, charged with manufacturing intoxicating liquor.

State vs. G. A. Talbert, et al., charged with unlawful possession of intoxicating liquor.

State vs. George Morton, charged with manufacturing intoxicating liquor.

State vs. Claude Eager, charged with abandonment.

State vs. Bill and Lola Chance, charged with unlawful possession of intoxicating liquor.

State vs. Alva Hudson, charged with abandonment.

State vs. Roscoe Arnold, charged with transporting intoxicating liquor.

FRECKLES

Now is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee or money back if it fails to remove freckles. (1)

Death Claims One In Hunger Strike

Other Two Reptiles Continue Their Fast

Stubbornly continuing the hunger strike which was declared by them on the day of their arrival in Ada, the two alligators which remain of the trio received from Sunny Florida by the Sutherland Lumber company three weeks ago seem to be thriving and doing well on light air and Twelfth street scenery their only articles of diet.

Despite the fact that their master has done every thing humanly possible to make them comfortable and their surroundings pleasant, they continue steadfastly in their original design and indicate by every sullen act that they intend to play the game to the bitter end. Desiring to add to their peace of mind, Mr. Dunham built them a nifty little concrete bungalow, facing Twelfth street at the corner of his office. Neither cement nor water was spared by the kind hearted man in his efforts to satisfy the reptiles, but they have absolutely refused to become reconciled and continue to turn a deaf stomach to all his well laid plans.

In trying to imitate the action of his seniors, Little Terrence, as Mr. Dunham called the year old specimen, died. Saved a few green flies, which he appeared to relish greatly, the youngster did not break his fast for over two weeks. Twice the large reptiles have been fed against their will, by forcing their jaws open and placing some raw beef in their mouths, but each time they got very angry and showed that they did not approve such strong arm tactics.

Mr. Dunham admits that if one would write a book on what he doesn't know about alligators it would contain some very valuable information. He is of the opinion that he and the two remaining reptiles are about to reach the parting of the ways, and if anyone in Pontotoc county knows of anything that will bring back an alligator's appetite he would like to hear from that person.

The immediate prospect is that

this year and wages probably will be much lower than in any year since 1915."

In North Dakota a survey disclosed that farm labor for spring and summer work was plentiful at from \$30 to \$40 a month as compared with wages of from \$50 to \$60 a month paid last year.

In Illinois the state department of labor reports farm hands going back to the farms and accepting the cut in wages.

Kansas farmers are demanding experienced men after worrying along for several years with any sort of labor that presented itself, according to officials of the Kansas free employment bureau. Experienced applicants are being located as fast as they apply, however, while there are about sixteen applicants for every job open in other lines of industry, the records show.

The bureau warns that farm hands who venture to define how many hours a day they are willing to work stand a poor chance of getting jobs.

The general scale recognized in Kansas, the principal growing state according to bureau officials, runs: For experienced hands from \$25 to \$50 a month (according to experience) for single men, and from \$40 to \$65 for married men who are willing to live on farms with their families. Last year, the peak year of farm wages, the scale ran \$40 to \$65 for single men and \$50 to \$80 for married men. Sold by Gwin and Mays and drugists everywhere. (26)

The immediate prospect is that

'BACK TO FARM' MOVEMENT ON AT KANSAS CITY

KANSAS CITY, Mo., April 7.—Widespread unemployment in cities has created a drift back to the farm and relieved the farm labor shortage brought about during the war, reports of federal and state employment bureaus reveal.

Farm hands in the great grain belt of the central states are reported plentiful at wages greatly reduced as compared with a year ago.

Farmers, who for several years

have been forced to grant almost any concessions to labor to bring their crops through, are in a position this year to dictate terms of employment, according to employment agency officials. Then, too, the farmer faces the problem this year of holding down the cost of production because of the low prices of farm products and generally is trying to get along with as little help as possible.

Farm wages in Kansas this year average \$40 a month, board and lodging, or about \$20 less than a year ago, the free employment bureau in that state reports. W. H. Lewis, Missouri labor commissioner, declares "there probably will

not be any shortage of farm labor.

Preparation

Spending your last dollar each week is no way of preparing for the future. There may come a time when you will not have a last dollar to spend. Then where will you turn for aid and comfort? Surely those with whom you spent your last dollar will not assist you.

Better that a man practice Thrift and lay aside part of his income, even though it be only two or three dollars each week. Then he can rest assured that the road of the future will be easier to travel when adverse conditions come upon him. He will have the necessary wherewithal to tide him over the rough spots.

Stop in today and let us show you how a Savings Account with us will safeguard your future.

CARPENTIER HALTS TRAINING TO AID ITALIAN CHILDREN

Mrs. John A. Drake, left; Georges Carpentier, and Mrs. Frank C. Henderson.

This is probably the first photo taken of Georges Carpentier out of his training quarters and in leisure attire since he began his real intensive training for his

coming battle with Jack Dempsey at Jersey City, July 2. He was the honored guest at a garden party given at the beautiful Italian villa of Mrs. Frank C. Henderson of Roslyn, L. I., for the Italian children's milk fund. Georges is shown above in the care of Mrs. Henderson and Mrs. John A. Drake, society leader.

State Crops Need Week of No Rains, Whitehurst Report

Oklahoma crops still are suffering from too much rains but hope is felt that this week weather conditions will be more favorable to cotton cultivation and to harvesting which is scheduled to reach its peak within a few days, according to a weekly crop report received here today from J. A. Whitehurst, president of the State Board of Agriculture.

"Last week was another one of continued rains, swollen streams and flooded lowlands. Some places have had fifteen successive days of rain and thousands of acres of crops have been covered with water and destroyed in some instances. There are reports of wheat and oats beaten down by the rains and winds; harvest generally has been much delayed. All growing crops have been greatly stimulated by the rains, but they need dry weather and cultivation now. Due to the delays from untoward weather, there is now a rush to get small grain harvested and the demand for labor is greater than a week ago. Wages are holding from \$2.00 to \$4.00," the report said.

"But for the rains, wheat cutting would be nearing completion at this time, it is said. "Corn and cotton were not needing immediate attention and harvest hands were plentiful. The situation has changed and it is a question of getting the crop cut before it goes down in the field as some of it has done already. Shocks are wet and need drying to prevent sprouting. Very few shocks have been capped although this would have helped to shed the rain. A great many threshers have been sold this spring to associations of from four to ten wheat growers.

"Oats are being cut as the weather permits. But for the rains much of the acreage would have been cut by now before it had become dead ripe; some of it is too short to bind. Barley and rye harvest continues.

"Corn is beginning to tassel and is making good growth. The fields that had been properly cultivated during the dry weather in May are not particularly weedy, but much of the cultivation now will be done with one horse due to the height of the corn.

"Cotton seems to be weathering the wet spell in fair shape, but is needing cultivation. Most of the fields are not so weedy, but much of the cultivation now will be done with one horse due to the height of the corn.

"Cotton seems to be weathering the wet spell in fair shape, but is needing cultivation. Most of the fields are not so weedy, but much of the cultivation now will be done with one horse due to the height of the corn.

Agriculture Now in Collapse for Need of Exports

(By the Associated Press)

WASHINGTON, June 20.—The Norris bill to create a federal farm export corporation with an appropriation of \$100,000,000 to finance the movement of farm products to Europe was endorsed today before the senate agricultural committee by Carl Brooman, assistant secretary of agriculture under the Wilson administration. He declared that agriculture in the United States was "in a state of collapse."

The passage of the bill is a matter of extreme urgency, Mr. Brooman said, adding that a "tremendous smash is impending because carryovers of corn, cotton and wool are the greatest ever seen."

"Blind Wives" at American

Seldom in motion pictures is the public given such an acting treat, in combination with such a superb production, as happens in the William Fox special "Blind Wives," now being shown at the American theatre. The picture is based on "My Lady's Dress," the international stage success by Edward Knoblock, and is a riot of richness, beauty and variety.

"Blind Wives" is really five plays skillfully woven into one. Two of the leading players enact five different parts each, and another plays four parts. Estelle Taylor, who made quite a name in "While New York Sleeps," another Fox Special, has the feminine lead. It will be at the American one more day.

LEWIS IS CANDIDATE TO OPPOSE GOMPERS

(By the Associated Press)

DENVER, June 20.—John L. Lewis, president of the United Mine Workers of America, today, formally announced that he was a candidate for the presidency of the American Federation of Labor in opposition to Samuel Gompers.

President Gompers announced that he will be a candidate for re-election in the following words:

"The delegation to the convention will determine who shall be their officials and if they see fit to re-elect their president they will have the opportunity. My name will go before the convention and will not be withdrawn."

At the close of the morning session Lewis called the newspaper men aside and made a brief statement.

While the action of Lewis was not unexpected there was a flurry of excitement among the delegates as the report spread about the convention floor. Several delegates immediately went into conference to determine whether they should support the miner's head or President Gompers.

Senate May Favor Reducing Army to 150,000 Men Soon

(By the Associated Press)

WASHINGTON, June 20.—Senate conferences on the army appropriations bill decided today to recommend that the senate yield to the insistence of the house that the army be reduced to 150,000 enlisted men by next October.

The decision of the senate conference forecasts a break in the deadlock between the two houses. The senate conference, backed by Secretary Weeks, have held out for an orderly reduction in the army from the approximately 220,000 men now in the service to 150,000. Such a reduction, it is estimated, would bring the army down to 150,000 by next May.

Hold Mason's Funeral

(By the Associated Press)

CHICAGO, June 20.—Funeral services of congressman William E. Mason, who died in Washington Thursday, were held here today.

Among the many wreaths that covered his coffin were flowers from President and Mrs. Harding and from many members of congress. Expressions of sympathy were received from several foreign nations.

THREE PRIZES LISTED FOR MINSTREL QUEENS

(By the Associated Press)

Three prizes, amounting to \$75 in value, will be given in connection with the Elk's minstrel queen contest June 29-30, according to announcement made Monday by Harry Ennis, director. The first prize will be a \$40 wrist watch, donated by the Coon Jewelry company, the second a \$25 cut glass toilet set donated by the American Glass Basket company, and the third prize a \$10 Mary Garden set donated by Gwin & Mays Drug company.

The first prize is on display at Coon's and the second and third prizes at Gwin & Mays.

Who is the most popular young lady in the county? This is one of the questions that Elk's hope to help answer in connection with the contest. In addition to selecting a queen of the minstrel they also will select two other young ladies, winners of second and third prizes, to become maids of honor of the association here.

Tickets for the minstrel which are now on sale, are put in envelopes and range in price from one cent to one dollar. Each ticket will draw the price indicated on it. No votes will be given for tickets ranging from one to ten cents, according to the plan, but tickets amounting to 10 cents and under 25 cents will be worth 100 votes. For every ticket between 25 cents and under 50 cents, 300 votes will be given.

Tickets priced between 50 and 75 cents will carry 700 votes and tickets from 75 cents to one dollar will be worth 1500 votes each for any candidate, according to rules.

Candidates are not limited to the city of Ada but any girl in the county may run. The minstrel queen will be announced and crowned before the opening of the first night's performance, June 29. At this time also, both maids of honor will be announced and prizes awarded.

In The Oil Fields

A considerable showing of oil and gas was found in the Transcontinental well on the Cotton farm in section 14-5-4, near Maxwell, late Saturday and Sunday. Enough gas was found around 1750 feet to spray the water over a part of the derrick, oil being present in small quantities.

Drilling is proceeding today at a depth of around 1765 feet. The owners are optimistic over the outcome and believe that a big gusher will come in around 1850 to 1900 feet. The hole is reported to be in the best of condition and drilling is still in progress with the ten-inch casing.

The Kingwood-Gillett well in section 36-5-6, northeast of Ada and southwest of Francis, is to resume drilling Tuesday at a depth of approximately 2,500 feet. Drilling has been shut down, awaiting the arrival of a load of casing. The casing came in today, according to reports, and activity will be resumed.

This well is on the Oliver farm and not far from the well drilled several years ago. In fact, oil from the first Oliver well is being used as fuel on this hole. Several sands have been found, two of which were said to be pay sands. A deep test of 3,000 feet had been planned, and the oil and gas at higher levels were cased off.

J. Henry Krause of Chicago and W. R. Davis of Tulsa, interested in the Transcontinental well, are in the city today. The are on the ground to watch developments.

Donald, the young son of H. A. Sibley, one of the operators in the Pontotoc county oil fields, has just arrived from Chicago. He will be with his father for some time.

Nash Praises Ada Normal for Close Union With State

A special chapel was held this morning at the Normal school at which M. A. Nash, secretary of the State Teachers association, delivered an address in the interest of the association. He was high in his praise for this district, stating that the East Central district of the teacher's association was the only one in the state where the counties in the district had completed their affiliation with the state association.

He also complimented Prof. E. C. Wilson of the Normal faculty for his good work in the interest of the association here.

Events at the Normal this week promise to be numerous as something for each day is being planned. For the past two weeks little outside activity had been going on. One Monday evening the students mixer will be the chief attraction. Tuesday evening will be the scene of several picnic parties as the country organizations are making such preparations for this date. Wednesday, Thursday and Friday will be used for the rural education conference, meetings being held each day.

Tickets for the minstrel which are now on sale, are put in envelopes and range in price from one cent to one dollar. Each ticket will draw the price indicated on it. No votes will be given for tickets ranging from one to ten cents, according to the plan, but tickets amounting to 10 cents and under 25 cents will be worth 100 votes. For every ticket between 25 cents and under 50 cents, 300 votes will be given.

Tickets priced between 50 and 75 cents will carry 700 votes and tickets from 75 cents to one dollar will be worth 1500 votes each for any candidate, according to rules.

Candidates are not limited to the city of Ada but any girl in the county may run. The minstrel queen will be announced and crowned before the opening of the first night's performance, June 29. At this time also, both maids of honor will be announced and prizes awarded.

George W. Perkins, Jr., Like Young Roosevelt, Follows Father's Footsteps

ANOTHER son of a prominent American has entered the public service. This time it is George W. Perkins, Jr., son of the late George W. Perkins, who was a very close ally of Theodore Roosevelt in most of his political campaigns and who was largely instrumental in organizing the United States Steel Corporation and the International Harvester Company. It is rather a coincidence that sons of these close friends should both decide to enter Government service. Theodore Roosevelt, Jr., is at the present time, Assistant Secretary of the Navy, while young Perkins, who took an active part in the recent Presidential Campaign, has just been named as Executive Secretary to Postmaster General Hay, and is acting in this capacity at Washington now.

Prominent at Princeton

Perkins, who is just twenty-six years of age, graduated from Princeton University in 1919. While at college he was active in undergraduate affairs with the result that in his senior year he was elected Chairman of the Senior Council, which is considered one of the highest honors obtainable at Princeton. In addition, he was Manager of the varsity crew, an honor obtained in competition; President of the college Y. M. C. A., as well as a member of the University Debating Committee.

In his senior year he resigned from the prominent college club, to which he had been elected, and led the upper classmen, who supported Richard Cleveland, son of Grover Cleveland, in his revolt against the club system.

In his summer vacations, while attending Princeton, young Perkins obtained work as a reporter on a New York morning daily and also spent one summer in making investigations for Mayor Mitchell's food supply committee.

Perkins entered the army on September 1st, 1917, as a private. He received rapid promotion to the highest rank—commissioned Major of the Executive Committee of the Boy Scouts of America and of the International Committee of the Y. M. C. A. He is on the Executive Committee of the Young Republican Club and Honorary Vice-President of the Honest Ballot Association.

George W. Perkins, Jr.

was transferred to the First Division shortly before the Armistice, and marched into Germany with the First Division.

During the winter of 1920 he acted as a member and Executive Secretary of the Princeton Endowment Fund Committee, which raised over eight million dollars for the University.

Since his return from Europe, he has been actively interested in welfare and civic activities in New York, and has made a member of the Executive Committee of the Boy Scouts of America and of the International Committee of the Y. M. C. A. He is on the Executive Committee of the Young Republican Club and Honorary Vice-President of the Honest Ballot Association.

The Room That Light Made

The old fashioned parlor with the shades pulled down—what has become of it? It passed, with the passing of the kerosene lamp, and the living room took its place. Parlors were gloomy; living rooms glow. Folks "sat" in those days, now they play. And the magic that has wrought the change is the magic of good light.

Let your living rooms glow with the sun by day, and with the Edison Madza Lamps at night. Of all your rooms, it deserves the best light; for it is the room that light made.

ADA TEAM DROPS
ONE TO PURCELL

Errors Responsible for Loss
of Battle off Local Lot
Is Belief.

The Ada ball team met defeat at Purcell 5-3 after a somewhat loose game, well sprinkled with errors.

Several factors contributed to the loss of the game according to members of the local club and rooters who saw the game. Neither Roach nor Young was able to play third base, West filling that position for the first time in many weeks. Several errors in the infield, it is said, were responsible for the winning run of Purcell.

Waner pitched the first five innings for Ada, allowing five hits and striking out three men. Williams pitched the last three innings and allowed three hits and struck out four men. Wilcoxson, the Purcell mound-man, allowed five hits and whiffed nine men. If both teams had played air-tight ball Ada would have won the game 2-1, members of the local team said.

DEMPSEY TRAINS
IN SECLUSION AS
TIME DRAWS NIGH

(By the Associated Press)
ATLANTIC CITY, June 20.—Jack Dempsey will not invade Jersey City for his world heavyweight championship battle with Georges Carpentier on July 2 until perhaps 24 hours before the contest, according to plans announced today by Jack Kearns, the manager of the champion. Dempsey will remain here in his training quarters until late afternoon of the preceding day.

Kearns has arranged to have Dempsey and his immediate handlers spend the night before the battle in the quiet of a private home in Jersey City instead of going to a hotel. Dempsey will be kept in seclusion from the time he reaches the battle ground until the time to go into the arena.

Cut by Moonlight.
(By the Associated Press)
EMPORIA, Kan., June 20.—Wheat is ripening so rapidly in this section because of extended hot weather that many farmers are cutting by moonlight. A number of farm crews worked Sunday to save the crop. A slight need of harvest labor is reported in this district.

"If I could only sell something, it would be easy to get by," said a man a few days ago. He was instructed to invest a few cents in a News "For Sale" ad and he sold it. Moral: Are you taking advantage of your opportunity?

Pleased With Banquet.
Thanks to the Ada Lions Club for the banquet given last week for faculty members of the East Central Normal were extended today in a statement issued by the faculty. The banquet was a decided success, they said, and all were highly pleased with the affair.

Summer Silk Skirts

Plain silks and novelty weaves, washable and un-washable; plain circular skirts, plaited skirts, novelty skirts; to attempt to describe all the textures and all the models would tire your attention.

These four things stand out—they are skirts of character; of thoroly good materials; of smart styling; of splendid workmanship and excellent value. Bearing the Bloomfield label you can count on everlasting satisfaction.

On the left: Plain circular skirt of Crepe Milano—a washable silk in self plaid effects. White only—it is trimmed around the bottom with 3 rows of black silk tailor's braid, the pockets trimmed with black braid and large rose-cut ocean pearl button.

Price \$12.50

On the right: Plaited skirt of Koo Koo Kween silk, a stout weave of rough warp and weft. Colors: white and blue fisherman's net brand at bottom and on belt with one and one-half inch white ocean pearl button.

Price \$15
